

QUALITY, HEALTH, SAFETY AND ENVIRONMENTAL PROTECTION POLICY

E-TOWERS FAMABA SPÓŁKA AKCYJNA is a significant manufacturer and supplier of steel structures. The plant specializes in the production of large-size steel structures, such as:

- Masts for onshore and offshore wind turbines
- Secondary components of wind turbine construction elements
- Components of steel port cranes and jib cranes, chimneys, telephone and radio masts

Our mission:

To offer our customers very high quality constructions that meet all the standards and expectations of the recipient, thanks to ongoing advisory and expertise in every phase of the project and striving for active cooperation with customers.

Our vision:

- Striving to meet the expectations and satisfaction of customers in terms of the quality of offered products, punctuality of deliveries and prices
- Acquiring new markets by expanding the range of products and services offered
- Strengthening the position of our company and increasing sales on the domestic and foreign markets

Our priorities:

- Increasing the satisfaction of our customers, paying special attention to the reliability and safety of our products
- Striving to meet all legal and other compliance requirements relating to our business and relevant to the context of our company
- Continuous improvement of the standard of products, services and competences of our employees
- Continuous improvement of the implemented integrated quality, environmental and occupational health and safety management system
- Management of all processes in accordance with the principles of safety, prevention of occupational injuries and diseases and respect for environmental protection, including the prevention of pollution
- Involvement of our employees in activities aimed at improving quality, health and safety at work and environmental protection

In accordance with its policy, the top management commits itself to actively promote and meet the requirements of the Integrated Management System at all levels and in all areas of the organisation.

The quality, health and safety and environmental protection policy of our company is available to all interested parties.
